Following the recent successful event held in Wadebridge we are holding mini information events for those living in the the extreme east and west of the county.

Parents and carers are invited to come and see how services such as short breaks and the accessible childcare pathfinder project are evolving through the Aiming High agenda in the county.

Come along to find out what's happening and give us your views.

To enable all parents to take part, travel and childcare expenses can be paid and transport can be arranged if necessary. The venues have plenty of parking and are completely accessible.
